Welcome to Sharpe

Sharpe Academy is a vocational Musical Theatre college based in Hatch End, North West London. Our courses are designed around our primary goal – to give students the necessary skills, knowledge, strength and stamina to become professional performers.

We are incredibly lucky to have an industry-focused faculty of teachers who have spent many years not only performing themselves, but gaining the right qualifications and experience to teach the next generation of performers. All our faculty know each of our students and are able to guide them individually. We provide professional preparation, industry guidance and opportunities to develop the practical skills required to pursue a performing career. Agent Sharpe operates separately as a professional talent agency, and any representation is governed by a separate agreement.

Our timetable, which consists of up to 35 contact hours each week, is built around triple threat training. Whether a student joins us with a great singing voice, outstanding pirouettes or a deep understanding of character, they train in all areas of Musical Theatre for the full duration of the course.

Our venue includes professional dance studios, drama workshops, recreation areas and a recording studio – all within an easy commute to London's West End.

We have a range of funding options including Grants, Bursaries and Scholarships, and a wellbeing team dedicated to providing the support our students need throughout their training.

We are incredibly proud of our graduates, who are working across the world in Television, Film, Musicals, Cruises, Hotels and Resorts.

We are searching for talented students to join us. We are particularly interested in finding those performers who require intensive training to release their full potential. Students who are willing to work hard in order to fulfil their dreams.

Our audition dates, which are also full experience days, can be found on our website **SharpeAcademy.co.uk** and our Instagram page **[@sharpeacademy](https://www.instagram.com/sharpeacademy)**.
